

Attention; Members of the Independent Media,

Below you will find a Press Release and Backgrounder on what may be the most important story you have ever covered — the World Health Organization's (WHO) devastating global power grab as it transforms itself into a controlling body from an advisory one. Once the next inevitable "pandemic" is declared, WHO's Director-General becomes the global medical dictator.

Using the excuse of "medical necessity," WHO plans to accelerate every aspect of Agenda 2030 into global "warp speed" implementation. Digital IDs and currencies, destruction of the sovereignty of every country on earth (and of every person) and the imposition of a medical tyranny unlike anything we have ever seen before are on the table. These plans have been developed in secret negotiations including the uber wealthy and special interests, but totally leaving out the rest of us. Closed meetings are currently ongoing to do just this - unless an informed public demands an end to this destructive and dictatorial plan.

A large amount of mistaken information is circulating about this crisis. Our team of researchers and professionals has distilled the facts and is eager to share them with you so that you can accurately shine the light on these threats for your audience. Media materials are available here, <https://preventgenocide2030.org/press-room>.

As a member of the Independent Press, your role in mobilizing strong and effective countermeasures is essential. A groundswell of public awareness is emerging. This is an opportunity to take a leadership role.

Yours in health and freedom,
